Outlier

Hi Gopalakrishnan,

We're writing with good news: You've been approved to work on Outlier! Your expertise will help us in our mission to improve the world's most advanced AI models.

- Your primary expertise: Math AI Trainer
- Status: Contractor
- Pay: People with your level of expertise and in your country typically receive a deliverable task pay rate of between $9 and $17 per hour. Pay rates vary by project and project phase, and might differ from what you originally applied for as the offered pay is determined after Outlier reviews your expertise and qualifications.

Next steps:

1. Claim your account (5 min)

Please be sure to sign up using the same email address you used to submit your application: gopal.krishnan.18.1.1@gmail.com. If the hyperlink doesn't work, paste this URL into your browser: https://app.outlier.ai/en/expert/signup?signup_flow=013851d0-94d5-4cdd-acf7-c3b46392fd0c

2. Complete phone and ID verification (5-10 min)

We use a third-party service called Persona in order to keep your information secure. Please note that if you are currently outside the country where your ID was issued, you may encounter an error during verification. If that happens, your case will be reviewed promptly.

3. Sign up for Discourse (5-10 min)

Discourse is our community platform — the place where you'll connect with project admins while you are working on a project. Instructions will appear on your dashboard. Once again, be sure to use the same email address where you received this email: gopal.krishnan.18.1.1@gmail.com.

4. Complete platform onboarding (times vary)

You'll complete a set of initial modules to understand how the platform works and the basics of being a contributor, then submit a few assessment tasks in our practice project (tasks paid at the assessment task pay rate)

Please note:

- Pay rates are determined by multiple factors, including the expertise, experience, and skills needed for each project
- Pay rates may vary during the project lifecycle, and rates for completing initial project onboarding courses and assessments may be lower
- This offer is contingent upon successful completion of project onboarding, which includes passing assessment questions
- You may be instantly matched with a project, or it may take up to 3 days to get your first match. If you find yourself without a project immediately after completing platform onboarding, please be patient and check in regularly.

We're excited to have you on board! Please complete the next steps at your earliest convenience to confirm your interest. Our goal is to get you working on a project as soon as possible. If you have any questions before getting started, or need support at any time, please visit our FAQ and support resources page. Additionally, sign up here to join a welcome session at your earliest convenience.

Congratulations once again. We look forward to helping you get started on Outlier!

Thank you,

The Outlier Team
